3.9 or below	College / Apprenticeship ready Speak to careers advisor about your aspirations and options. Apply for Level 1 / 2 College courses or Level 1 / 2 Apprenticeships

### AtL - Attitude to learning

E - Excellent: Typically, always tries hard to complete work and perseveres when they experience difficulties.  
Will independently improve their understanding outside lessons. Participates fully in lessons, is well

organised and produces work, including homework, to the best of their ability.

G - Good: Typically, consistently works well to reach their potential, responding to feedback and persevering when they experience difficulties. Participates well in class, is organised and attempts all work, including homework. Demonstrates a positive approach to their learning.

B - Basic: Typically, either displays an inconsistent approach or does the minimum amount to get by. This may be evident in terms of the quality of work produced, concentration in class, completion of homework and general organisation. Needs to show positive behaviours more consistently.

P – Poor: Typically, does not concentrate well in lessons which impacts on theirs and/or others learning. Produces work below expected standards with little or no effort to improve using feedback. Regularly arrives to lessons without completed homework or the required equipment. Attitude in class and quality of work requires immediate improvement.

### **Mock Grade**

The number indicates the GCSE Grade (9-1) your child has achieved in the December 25 Mock exams. These grades are used to calculate your child's average point score (APS).
